Product Catalog

HI, WE'RE FERRIS!

We're a family-owned and operated in Grand Rapids, Michigan. With over 100 years of business under our belt, our team is committed to providing the best nuts and trail mixes because we care about the people we serve. Nuts start as a simple seed in the ground and through long-lasting relationships with our growing partners, we can ensure that the journey from farm-to-roaster to your table results in the highest quality, freshest products.

We're on a mission to create moments of joy and connection.

NUTTY FACTS

We are very particular about where we source our products from. Quality is priority number one and we work diligently to find the best pricing on the highest quality nuts that adhere to our standards.

The majority of our nuts are sourced right here in the USA, however, we partner with growers in 6 other countries to ensure you get the best products available. We regularly sample our vetted suppliers to confirm that are maintaining our expectations. Beyond our suppliers, our in-house team of roasters are passionate about the products they produce. They personally oversee each order and take pride in the sustainable supply chain we've built.

ARE YOUR NUTS TOP OF THE CLASS?

Nuts may not be graded like students but there is a scale to judge them. It was created to distinguish between the different levels of size and quality. The number used to describe the size is the amount of cashews it takes to equal a pound. At Ferris we never source any cashews below 320. It's just not right.
