

# The Market Minute

January 14, 2026

**Beefsteak Tomatoes:** Limited availability on this item which has caused prices to spike.

## Continued from last week

**Brussel Sprouts:** Per main supplier, weather events are limiting available supplies. (High temperatures and extreme humidity in growing region.) Availability should start improving in January.

**Green Onions:** Growing region is experiencing weather issues. Price is still high this week.

**Strawberries:** Increase in volumes out of Florida and pricing starting to come down.

**Celery:** Pricing on all celery items are still high this week due to weather issues.

**Oranges:** Supplies are skewed toward larger sizes, small fruit remains extremely limited.

**Bananas:** Due to weather in the tropics we are experiencing shorter supplies on product.

**Organic Arugula:** **Earthbound/Organic Girl Arugula.** Due to recent winter weather, Arugula is experiencing some challenges due to widespread mildew. This issue may continue until March.
