Revolution Farms lettuce is bigger and greener than other brands, and darker green lettuce leaves contain higher levels of Beta-carotene, Vitamin C, Calcium, and Iron (USDA, 2001).

Product is hydroponic
(Grown in water, not soil)

REVOLUTION
FARMS

The lettuce is grown to full maturity and picked at peak, only when it's ready. Plus, its free from chemical fertilizers, and pesticide-residue free, making it better than organic.
